

Dear Guest

Thank you for dining with us today. This year we have revised a little our menus for you. **“Eat consciously”**, is the main focus. We want you to eat a healthy and balanced meal with us. However, you should not go on a diet, because after all you are on holiday and have left the scales safely at home.

You are welcome to eat a three-course menu and choose tiramisù. You just have to do this consciously and know that this choice might not be the best one. We have written the balanced, somewhat healthier and more sustainable dishes in the menu in green. Maybe choose one of these dishes **“in green”** and combine it with another. Then you will have eaten “consciously”. It’s that simple!

Be open to something new, get to know regional products and come with us on an interesting culinary journey.

Vegetarian menu
